(From an occasional correspondent.)

A term of high school will commence in Masonic hall, Bridport, Sept. 4, to continue fourteen or twenty weeks as the directors may elect. Miss Cora Smith of Addison has been engaged as teacher. Miss Smith takes charge of the school after four years study at Saxton's River, followed by four years at Wellesley, graduating at each of the above institutions. The school directors feel a certain degree of satisfaction in presenting to the people of Bridport the first tangible benefits of the town system of schools. That a school of high grade could be established and maintained in a town in this State without extra cost to its patrons was impossible under the district system. Not only is this possible under the present system, but in this grade of school, and furnished with such a teacher, it is practicable for school children to fit themselves for college without going outside their town schools, and this without impairing the efficiency of the common schools. A prediction one year ago that the above educational conditions would exist here in Vermont today would have been scouted by the incredulous as impossible and would have been hailed by the friends of education as a realization of their highest hopes. We believe that no system of education in any State offers greater advantages than are possible under the town system of schools in Vermont.

both in the way it acts, and in the way it's sold, is Dr. Pierce's Favorite Prescription for women.

It acts in this way:

If you're weak or "run-down," it builds you up; if you suffer from any of the painful disorders and derangements peculiar to your sex, it relieves and cures. It improves digestion, enriches the blood, dispels aches and pains, brings refreshing sleep, and restores flesh and strength. For all functional weaknesses and irregularities, it's a positive remedy. Hence, it's sold in this way:

It's guaranteed to give satisfaction, in every case, or the money paid for it is refunded.

They're the smallest, the cheapest, the easiest to take.

But all that would be nothing, if they weren't also the best to take.

Dr. Pierce's Pleasant Pellets prevent and cure Sick Headache, Bilious Headache, Constipation, Indigestion, Bilious Attacks, and all derangements of the liver, stomach and bowels.
